

Domestic Eavesdropping in America

HAS IT REALLY COME TO THIS?

Since 2001, President Bush has authorized the National Security Agency to bypass the Constitution and monitor our phone calls and emails without a court order.

WHICH DO YOU TRUST?

The Constitution

Establishes the following protections of our rights:

- ◆ A need for warrants, issued only if there is probable cause
- ◆ Protection from unreasonable searches and seizures
- ◆ Balance of powers among the executive, judicial, and legislative branches
- ◆ Due process of law

The Bush Administration

"Just trust us."

WHAT CAN YOU DO?

**Call Congress on September 12, 2006!
Dial the Capitol switchboard (202-224-3121) and ask
the operator to connect you (24 hours a day).**

Please call both your Senators and your Representative and urge them to:

- ◆ OPPOSE Senator Specter's S. 2453, Senator DeWine's S. 2455, and Representative Wilson's H.R. 5825.
- ◆ OPPOSE any other legislation that would give the executive branch new surveillance powers that are immune to oversight by the courts and Congress
- ◆ SUPPORT a full, public investigation of the NSA surveillance program.

For more information, including talking points, visit the BORDC's "National Call-in to Congress" webpage, www.bordc.org/callin.php.
